

SPECIAL WEATHER ADVISORY STATEMENT  
for PEQUANNOCK TOWNSHIP RESIDENTS  
As of February 7, 2013; 10:00 PM

A Winter Storm Warning has been issued for our area from 6:00 AM tomorrow morning through 6:00 AM Saturday morning. A Winter Storm Warning means significant amounts of snow, sleet or ice are expected or are occurring. Strong winds are also possible which will make travel very hazardous or impossible.

All residents are advised to take reasonable precautionary measures to prepare for the storm. "Get a Kit; Make a Plan and Stay Informed". Do not travel during heavy snowfall - the heaviest period of snow is expected late Friday afternoon into Friday night.

Pequannock Township Schools have announced an early dismissal for tomorrow. If conditions or forecasts warrant, the school district will announce a full day closing by 5:30 AM tomorrow morning.

Strong winds associated with this storm may bring down tree limbs and cause localized power outages and street closures. Allow extra time for local travel and be very cautious where debris is in the roadway. Never approach a downed power line. Be aware of your surroundings when traveling in heavy wind and snow conditions.

Parking on snow covered streets within the Township is not permitted. Cars parked on streets interfere with snow removal operations - illegally parked vehicles will be ticketed and towed. Pushing snow onto already plowed roads is not permitted.

All residents are encouraged to monitor weather reports and remain alert to rapidly changing conditions. No update to this advisory is planned unless the forecast or conditions change significantly.
