Appendix E	Bog Turtle Certificate & Pre Application Minutes

PART I. INTRODUCTION

1. PROJECT LOCATION

The project is located along the Route NJ 23 Arterial Road in Wayne Township, Passaic County, Pequannock Township, Riverdale Borough, Kinnelon Borough, and Butler Borough in Morris Counties (See Appendix A for the location map). This 11.5-mile-long N-S oriented project lies between MP 5.53 and MP 16.94. The roadway corridor intersects with the Interstate Freeway I-287 at MP 12.86 with an AADT of 67,000 vehicles south of I-287, and 43,000 vehicles north of I-287. There are eighteen (18) signalized intersections within the project limits. The NJDOT's Classification of Arterial Systems Technology (COAST) System identified the Route 23 project corridor as a high-ranking zone that can be improved using Adaptive Traffic Signal System Control (ATSC). Therefore, the purpose of the project is to provide safe and efficient traffic signal operations by adjusting signal timing in real time to serve various traffic demand scenarios thereby improving mobility and reducing traffic congestion. Refer to Figure 1 for a depiction of the project location.

2. PROJECT DESCRIPTION

The New Jersey Department of Transportation (NJDOT) is proposing to upgrade outdated traffic signal controllers and controller cabinets in order to collect improved traffic data on U.S. Route 23, from Milepost (MP) 5.53 to 16.94.

The U.S. Route 23 project proposes to construct:

- System detectors on poles with concrete foundations
- New Camera Surveillance Systems poles (2) and Dynamic Message Sign (1)
- 5' diameter concrete ITS junction boxes inground
- Rigid metallic subsurface connecting conduit between system detectors/meter cabinets and junction boxes; and
- Installing RSUs (communication devices), changing detectors, and replacing signal controllers (computer within the traffic signal cabinet)
- Approximately 11.4 miles of fiber optic cable will be installed within the highway median to provide a communication system among the project infrastructure

Construction and restoration will be conducted utilizing typical road cut techniques and using a ditch witch or similar excavating equipment in adjacent right-of-way (ROW). Except as depicted on site plans or as required by permit conditions, the depth of cover will typically be a minimum of 36 inches of cover, except where consolidated subgrade prevents this depth. The contractor will bury the conduit, which is generally a 3 inch plastic pipe with a pulling tape to facilitate the actual cable pulling process. If the pipe does not have a pulling tape installed, a line may be blown through the duct to pull the line through. Directional boring will also be used to avoid digging up the surface, for example in crossing streets, sidewalks, or environmentally sensitive areas. An Erosion and Sedimentation Control Plan ("ESCP") developed by NJDOT will be implemented and will depict in detail the typical open construction and restoration techniques measures to be utilized for this project. All proposed project infrastructure would be installed within the NJDOT right-of-way (ROW). Structural work will be limited to the construction of support poles and foundations for system detectors, roadside unit equipment, camera surveillance system cameras, and dynamic message signs.

The NJ 23 project area is comprised of a 4-lane roadway, with adjacent parcels consisting mainly of developed commercial and residential areas constructed on fill.

DIRECTIONAL BORING

The directional boring technique is used beneath roads, sidewalks, waterways or other natural obstacles utilizing equipment and techniques derived from oil well drilling technology. In general terms, the installation is a two-stage process consisting of establishing a small diameter pilot hole along the crossing profile, followed by enlarging the pilot hole to accommodate pull back of the pipe or conduit. Following the pullback, the FOC is drawn through the conduit to be connected to prior-laid FOC in a junction box. The directional boring technique is proposed for crossing Route 23 and local cross streets.

ROAD CROSSINGS

The project is located adjacent to and/or will cross under a total of 16 arterial roadways. Utilities were contacted and existing utility locations in roads were acquired during the design phase. In addition, prior to construction, the New Jersey “One Call” system will be contacted a minimum of three (3) working days prior to the start of intrusive work to verify and mark all utilities along the project workspace areas. Where there is a question as to the location of utilities, such as, water, cable, gas, and sewer lines, they will be located by field instrumentation.

Generally, conventional boring will be required under major arterial roadways. Boring entails drilling a hole below travel arteries through which the FOC will pass. First, a bore pit is dug on one side of the artery and a receiving pit dug on the other. The bore pit is excavated to a depth equal to the depth of the ditch and is graded such that the bore will follow the grade of the pipe. A boring machine is lowered to the bottom of the bore pit and placed on supports. The machine cuts a shaft under the artery using a cutting head mounted on an auger. The auger rotates in a casing, both of which are pushed forward as the hole is cut. The FOC is then pulled through the casing.

BRIDGE CROSSING

The project's FOC must cross 5 streams (Pequannock River, the lower segment of Stone House Brook, tributaries to the Pequannock River, Pequannock Brook, Pompton River, Preakness Brook). Existing utilities cross some of these streams by attaching to the bridge's upper structures using protective conduits. NJDOT will use this same method for the proposed cable for this project.

APPURTENANCES

Table 1 lists the above ground equipment that will be needed for this project. Location of these units are presented in site plans.

Table 1. Proposed Enhancements for the Project

PROPOSED EQUIPMENT	UNITS ANTICIPATED
Signalized Intersections (NO BELOW GROUND IMPACT - Install image detectors to signal poles and revise wiring in existing system)	18
System Radar Detector or Road Side Unit (RSU) on Aluminum Pole & Concrete Foundation	19
Camera Surveillance System (CSS, also known as CCTV) , Steel pole on Concrete Foundation	2
Dynamic Message Sign (DMS), Steel structure on Concrete Foundation	1
Device Controller Cabinets and Fiber Cross-Connect Cabinet on concrete foundations	4
Meter Cabinet on Concrete Foundation (Electric Power meter - one for each site)	26
ITS Junction Boxes (3' Round for Fiber Optic Cable)	74
Electrical Junction Boxes (18" x 36" Rectangular for power)	47

3. PROJECT PURPOSE

The purpose of this project is to implement Adaptive Traffic Signal (ATS) technology for eighteen (18) intersections within the project limits, which will adjust the timing intervals of the signal phases at each location to accommodate changing traffic patterns throughout the day and ease congestion. Existing traffic devices will be upgraded and new devices will be strategically deployed to provide the capability of implementing operations and maintenance strategies that maximize the safety, efficiency, and reliability of the traffic signal system and to address the project need with respect to safety, capacity, community, environment, operational improvements, and right of way impacts.

4. COMPLIANCE STATEMENT

This Compliance Statement demonstrates the Project's compliance with various New Jersey Department of Environmental Protection (NJDEP) Division of Land Resource Protection (DLRP) regulations applicable to the Project. The Environmental Report (submitted under separate cover) provides detailed information regarding the Project including project location, proposed activities, existing conditions, and proposed impacts are included in the Environmental Report. Proposed activities are shown on the Freshwater Wetland General Permit Plans.

Under the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A), the NJDEP DLRP regulates activities within freshwater wetlands, transition areas and State open waters. Proposed activities that do not meet the requirements of an authorization under a general permit-by-certification, an authorization under a general permit, or a transition area waiver will require authorization under a Freshwater Wetland Individual Permit pursuant to N.J.A.C. 7:7A-9.

NJDOT is applying to the NJDEP for the following permit approvals, authorizations and certification for activities associated with the Quinton-Wind Port Project.

- Freshwater Wetlands General Permit 2 – Underground Utility Lines (N.J.A.C. 7:7a-7.2);
- Freshwater Wetlands General Permit 21 – Above Ground Utility Lines (N.J.A.C. 7:7a-7.21);

PART II. COMPLIANCE STATEMENT FOR FRESHWATER WETLAND GENERAL PERMITS #2 UNDERGROUND UTILITY LINES AND #21 ABOVE GROUND UTILITY LINES

I. A DESCRIPTION OF THE CHARACTERISTICS OF THE SITE AND THE LOCATION OF ALL PROPOSED REGULATED ACTIVITIES, POTENTIAL IMPACTS FROM THE CONSTRUCTION PROCESS, AND, AS APPLICABLE, ANY MONITORING OR REPORTING METHODS THAT WILL BE USED;

This document presents information in support of a NJDEP DLRP application for a Freshwater Wetlands General Permit #2 Underground Utility Lines (N.J.A.C. 7:7A-7.2) and Freshwater Wetlands General Permit #21 Above Ground Utility Lines. Proposed activities shall meet the standards for a Freshwater Wetland General Permits under N.J.A.C. 7:7A-7 and mitigation in accordance with N.J.A.C. 7:7A-11. In conformance with the Freshwater Wetlands Protection Act Rules, NJDOT is applying for the two aforementioned Freshwater Wetlands General Permits for the Project and all associated necessary construction activities. A detailed description of the existing on-site conditions within the project area including geomorphology, soils, hydrology, uplands and wetlands, threatened and endangered species, and cultural resources is included in the Environmental Report (submitted under separate cover).

II. THE TOTAL AREA, IN ACRES, OF WETLANDS AND STATE OPEN WATERS ON THE SITE BEFORE THE REGULATED ACTIVITY IS PERFORMED, AND THE TOTAL AREA, IN ACRES, OF WETLANDS AND STATE OPEN WATERS, ON THE SITE THAT WILL REMAIN AFTER THE REGULATED ACTIVITY IS PERFORMED;

A total of 55 wetlands and 31 waters were delineated within the survey area. Of this, 29 wetlands and 15 waters were mapped in the project ROW, totaling 7.274 acres and 2,851 linear feet, respectively. The boundaries of delineated wetlands were marked in the field by sequentially numbered flags and subsequently surveyed. The wetland communities identified and delineated within the project area are described in the Environmental Report (submitted under separate cover).

III. A LIST OF ALL LIMITS AND REQUIREMENTS OF GENERAL PERMIT AT N.J.A.C. 7:7A-7.2 AND 7:7A-7.21 THAT APPLY TO THE PROPOSED ACTIVITIES AND AN EXPLANATION OF HOW THE ACTIVITIES COMPLY WITH EACH REQUIREMENT;

IIla. Limits and Requirements of General Permit 2 (7:7A-7.2)

(a) General permit 2 authorizes activities in freshwater wetlands, transition areas, and/or State open waters necessary for the construction and/or maintenance of an underground utility line, provided all applicable requirements at N.J.A.C. 7:7A-5.7 and 20.3 are met and:

- 1. Permanent above-ground disturbance of wetlands, transition area, and/or State open waters is no greater than 0.5 acre. Anything that changes the character of the existing wetland, even if only to a different wetland type, is permanent disturbance. For example, maintained clearing over a utility line is permanent disturbance. For the purposes of this section, installation of a utility line in scrub shrub or emergent wetlands shall not be considered permanent disturbance;*
- 2. Permanently maintained clearing over the utility line is no wider than 20 feet unless a wider area is required by law;*

3. *The trench into which the utility line is placed is no wider than necessary to comply with the United States Occupational Safety and Health Administration safety standards for excavations, set forth at 29 CFR Part 1926, Subpart P;*
4. *Temporary disturbance, such as temporary construction clearing or temporary storage of dirt or equipment, is the minimum size necessary for compliance with applicable laws;*
5. *The activities shall not cause any change in preconstruction elevation of a freshwater wetland, transition area, or State open water; and*
6. *Manholes and siphons for sewer lines are placed outside of wetlands, unless the Department's Municipal Finance and Construction Element determines under N.J.A.C. 7:22 and/or 7:14A-23 that there is no feasible alternative to placement in wetlands.*

(b) If a utility line is jacked or directionally drilled underground, so that there is no surface disturbance of any freshwater wetlands, transition areas, or State open waters and there is no draining or dewatering of freshwater wetlands, no Department approval is required under this chapter. Jacking or directional drilling is regulated under this chapter if any disturbance occurs to the ground surface in the freshwater wetlands, transition area, or State open water; for example, if the drilling is conducted from a pit located in a freshwater wetland or transition area.

(c) In order to minimize environmental impact, a permittee shall:

1. *Dispose of any excess soil or bedding material immediately upon completion of construction. This material shall be disposed of outside of freshwater wetlands, transition areas, State open waters, and areas regulated under the Department's Flood Hazard Area Control Act rules at N.J.A.C. 7:13;*

2. *Backfill the uppermost 18 inches of any excavation with the original topsoil material;*

3. *Replant the disturbed area with indigenous wetlands plants;*

4. *Stabilize the disturbed area in accordance with the requirements of the appropriate Soil Conservation District; and*

5. *Ensure that the activities do not interfere with the natural hydraulic characteristics of the wetland, such as the flow characteristics of groundwater on the site.*

(d) Any pipes laid through wetlands, transition areas, or State open waters shall be:

1. *Properly sealed so as to prevent leaking or infiltration;*

2. *Designed so as not to form or provide a conduit for groundwater to be discharged or drained from the wetland; and*

3. *Placed entirely beneath the pre-existing ground elevation in order to allow free passage of surface and ground water, unless the applicant shows that placing some or all of the pipe above ground would be more environmentally beneficial.*

(e) Mitigation shall be performed for all permanent loss and/or disturbance of 0.1 acres or greater of freshwater wetlands or State open waters. Mitigation shall be performed for all permanent loss and/or disturbance of less than 0.1 acres of freshwater wetlands or State open waters unless the applicant demonstrates to the Department that all activities have been designed to avoid and minimize impacts to wetlands. For purposes of this subsection, "minimize" means that the project is configured so that most or all of it is contained in the uplands on the site, and that the wetlands are avoided to the greatest extent possible. An applicant is not required to reduce the scope of the project or to consider offsite alternatives to comply with this requirement.

1. *The mitigation shall meet the substantive and procedural requirements at N.J.A.C. 7:7A11 and shall be submitted to the Department for review and approval no later than 90- calendar days prior to the initiation of regulated activities authorized by this general permit.*

IIIb. Limits and Requirements of General Permit 21 (7:7A-7.21)

(a) General permit 21 authorizes the following activities in freshwater wetlands, transition areas, and/or State open waters necessary for the construction of an above ground utility line:

- 1. Installation of poles, towers, or other supports from which to suspend a pipe, wire or cable;*
- 2. Construction of a pad mounted transformer;*
- 3. Placement of an above ground pipe, wire or cable;*
- 4. Clearing of vegetation under and around utility lines, within the limits at (b) below; and*
- 5. Minor, temporary disturbances, necessary for access during construction.*

(b) Activities under general permit 21 shall comply with the applicable requirements at N.J.A.C. 7:7A-5.7 and 20.3 and the following limits:

- 1. Temporary disturbance of freshwater wetlands, transition areas, and/or State open waters during construction shall be no more than 60 feet wide, including vegetative clearing and disturbance for access under (a)5 above; and*
- 2. Permanent disturbance of freshwater wetlands, transition areas, and/or State open waters, including the area of vegetative clearing to be maintained underneath the utility line shall be no greater than 0.5 acre and no wider than 20 feet, unless the applicant demonstrates that a wider disturbance is necessary to comply with applicable laws or regulations. For the purposes of this paragraph, installation of a utility line in scrub shrub or emergent wetlands shall not be considered permanent disturbance.*

(c) Activities under general permit 21 shall not interfere with the natural hydrologic characteristics of the wetland, transition area, or State open water. The applicant shall place the utility line on pilings if necessary, in order to satisfy this condition.

(d) After the utility line is constructed, any freshwater wetlands, transition areas, or State open waters disturbed, which are not within the cleared area to be maintained under (b)2 above, shall be allowed to revert to their natural condition.

(e) Mitigation shall be performed for all permanent loss and/or disturbance of 0.1 acres or greater of freshwater wetlands or State open waters. Mitigation shall be performed for permanent loss and/or disturbance of less than 0.1 acres of freshwater wetlands or State open waters unless the applicant demonstrates to the Department that all activities have been designed to avoid and minimize impacts to wetlands. For purposes of this subsection, "minimize" means that the project is configured so that most or all of it is contained in the uplands on the site, and that the wetlands are avoided to the greatest extent possible. An applicant is not required to reduce the scope of the project or to consider offsite alternatives to comply with this requirement.

- 1. The mitigation shall meet the substantive and procedural requirements at N.J.A.C. 7:7A11 and shall be submitted to the Department for review and approval no later than 90- calendar days prior to the initiation of regulated activities authorized by this general permit.*

A total of 0.005 acres of temporary impact to freshwater wetland; 0.930 acres of temporary impact to transition areas; and 0.001 acres of permanent impact to transition areas will occur with the proposed project. Part IV of the Environmental Report, including *Table 4*, provides more detail on the proposed Project's anticipated freshwater wetland impacts, as well as the wetland mitigation proposal to adequately compensate for these impacts.

IV. A LIST OF ALL LIMITS AND REQUIREMENTS AT N.J.A.C. 7:7A-5.7, CONDITIONS APPLICABLE TO AN AUTHORIZATION PURSUANT TO A GENERAL PERMIT-BY-CERTIFICATION OR A GENERAL PERMIT, THAT APPLY TO THE PROPOSED ACTIVITIES AND AN EXPLANATION OF HOW THE ACTIVITIES COMPLY WITH EACH REQUIREMENT;

4.1 N.J.A.C. 7:7A-5.7 CONDITIONS APPLICABLE TO AN AUTHORIZATION PURSUANT TO A GENERAL PERMIT-BY-CERTIFICATION OR A GENERAL PERMIT

The information provided in this section is for the entire Project for which unavoidable impacts to freshwater wetlands and aquatic resources are proposed. NJDOT has designed and engineered the Project to avoid and minimize impacts to aquatic resources to the extent feasible, while still meeting the Project Purpose and Need.

V. IF A SITE IS KNOWN OR SUSPECTED TO BE CONTAMINATED WITH TOXIC SUBSTANCES, AND IF THE DEPARTMENT REQUESTS IT, A LABORATORY ANALYSIS OF REPRESENTATIVE SAMPLES OF THE SOIL OR SEDIMENT ON THE SITE;;

Historic fill is present along the highway corridor. If hazardous materials are identified during excavations additional investigations will be conducted to analysis the material and its classification.

VI. DOCUMENTATION REGARDING WHEN THE LOT THAT IS THE SUBJECT OF THE GENERAL PERMIT WAS CREATED BY SUBDIVISION;

Not applicable, part of NJDOT right-of-way.

VII. A HISTORY OF THE OWNERSHIP OF THE PROPERTY BEGINNING JUNE 30, 1988 TO PRESENT;

Not applicable, part of NJDOT right-of-way that was in existence prior to 1988.

VII. A LISTING OF CONTIGUOUS LOTS THAT WERE IN COMMON OWNERSHIP WITH THE LOT ON WHICH THE ACTIVITIES ARE PROPOSED AND THE OWNERSHIP HISTORY OF EACH LOT BEGINNING JUNE 30, 1988 TO PRESENT;

Not applicable, all activites are within NJDOT right-of-way.

IX. IF THE SITE IS LOCATED IN A MUNICIPALITY WITH THE ENDANGERED PLANT KNOWN AS SWAMP PINK (HELONIAS BULLATA), WHICH ARE LISTED IN KNOWN LOCATIONS OF SWAMP PINK IN NJ, A SIGNED STATEMENT FROM THE APPLICANT CERTIFYING THAT THE PROPOSED ACTIVITIES WILL NOT RESULT IN ANY DIRECT OR INDIRECT ADVERSE IMPACTS TO SWAMP PINK OR ITS DOCUMENTED HABITAT;

Not applicable. Municipalities not listed as potential for swamp pink.

X. IF THE SITE IS LOCATED IN A MUNICIPALITY WITH THE ENDANGERED BOG TURTLE (THESE MUNICIPALITIES ARE LISTED IN KNOWN LOCATIONS OF BOG TURTLES IN NJ), A SIGNED STATEMENT FROM THE APPLICANT, CERTIFYING THAT THE PROPOSED ACTIVITIES WILL NOT RESULT IN ANY DIRECT OR INDIRECT ADVERSE IMPACTS TO BOG TURTLES OR TO THEIR DOCUMENTED HABITAT; AND

A bog turtle certification document is included in the Environmental Report, noting no bog turtle habitat was identified in the project corridor.

XI. IF THE SITE IS LOCATED IN AN AREA DESIGNATED A WILD AND SCENIC RIVER, OR UNDER STUDY FOR SUCH DESIGNATION, A LETTER FROM THE NATIONAL PARK SERVICE APPROVING THE PROPOSED ACTIVITIES.

Not applicable. Site not within wild and scenic river.

Part III. Establishing Permit Conditions (7:7A-20.3)

(a) In addition to the standard conditions required in all permits under N.J.A.C. 7:7A-20.2, the Department shall establish conditions in a permit, including a waiver or general permit authorization, as required on a case-by-case basis, to assure compliance with all applicable requirements of the Federal Act, the Freshwater Wetlands Protection Act, the Water Pollution Control Act, this chapter and other applicable rules or regulations. For the purposes of this subsection, an applicable requirement is a statutory or regulatory requirement which takes effect before the Department's final administrative decision on a permit, or before the modification or termination and reissuance of a permit.

(b) In addition to the standard requirements in N.J.A.C. 7:7A-20.2, each permit shall include information meeting the following requirements, when applicable:

- 1. A specific identification and description of the authorized activity, including:*
 - i. The name and address of the permittee and the permit application identification number;*
 - ii. The use or purpose of the regulated activity;*
 - iii. The type and quantity of the materials to be discharged or used as fill;*
 - iv. Any structures proposed to be erected;*
 - v. The location and boundaries of the activity site(s), including a detailed sketch and the name and description of affected freshwater wetlands, State open waters, and transition areas, identification of the HUC 11 and watershed management area; and*
 - vi. A reference to the specific site plans depicting the approved regulated activity(ies);*
- 2. Provisions ensuring that the regulated activity will be conducted in compliance with the findings and/or environmental guidelines issued under section 404(b)(1) of the Federal Act at 40 CFR Part 230, the Freshwater Wetlands Protection Act, and this chapter, including conditions to ensure that the regulated activity shall be conducted in a manner which minimizes adverse impacts upon the physical, chemical, and biological integrity of the waters of the United States and/or waters of the State, such as requirements for restoration or mitigation;*
- 3. Any requirements necessary to comply with water quality standards established under applicable Federal or State law. If an applicable water quality standard is promulgated or modified after the permit or waiver is issued, the permit or waiver shall be modified as provided in N.J.A.C. 7:7A-20.6.*
- 4. Requirements necessary to comply with any applicable toxic effluent standard or prohibition under section 307(a) of the Federal Act or applicable State or local law. If an applicable toxic effluent standard or prohibition is promulgated or modified after the permit or waiver is issued, the permit or waiver shall be modified as provided in N.J.A.C. 7:7A-20.6;*
- 5. Applicable best management practices (BMPs);*
- 6. Any conditions necessary for general permits as required under N.J.A.C. 7:7A- 5 or 7;*
- 7. A specific date on which the permit shall automatically expire if the authorized work has not been commenced, unless before the automatic expiration date the permit is terminated and reissued, or modified, or extended; and*
- 8. Reporting of monitoring results. All permits and waivers shall specify:*
 - i. Requirements concerning the proper use, maintenance, and installation, when appropriate, of monitoring equipment or methods (including biological monitoring methods when appropriate);*
 - ii. Required monitoring including type, intervals, and frequency sufficient to yield data which are representative of the monitored activity including, when appropriate, continuous monitoring; and*
 - iii. Applicable reporting requirements based upon the impact of the regulated activity.*

(c) The Department may in some cases include a permit condition requiring a preconstruction meeting on the site of permitted activities. Such a condition shall specify how many days prior to construction the permittee must notify the Department so that the preconstruction meeting can be scheduled.

(d) All permit conditions shall be incorporated either expressly or by reference. If incorporated by reference, a specific citation to the applicable rules or regulations or requirements shall be given in the permit.

The proposed Project is a non water-dependent activity as defined at N.J.A.C. 7:7A-1.4. Alternatives analyzed include the no build, and build within NJDOT right-of-way. Based upon the Purpose and Need, this Alternatives Analysis demonstrates the proposed Project is in compliance with the Freshwater Wetlands Protection Act Rules. No other practicable alternatives were identified that would meet the Project Purpose and Need and result in fewer impacts to wetlands or aquatic resources.

The Project will occur within the existing NJDOT roadway right-of-way. During the Alternative Analysis, study segments were analyzed for both impacts to the built and natural environments. NJDOT believes cumulative social, environmental, and financial impacts associated with construction of the project will be less than any other Alternative Route.

The proposed Project would involve unavoidable impacts to exceptional resource value wetlands. However, these impacts have been minimized to the maximum extent practicable. Proposed impacts are discussed in the Environmental Report Part IV Section 1.0.

Part IV. Additional application requirements for an authorization under a general permit, for an individual permit, or for a transition area waiver (7:7A-16.7)

In addition to meeting the requirements at N.J.A.C. 7:7A-7.2 and N.J.A.C. 7:7A-7.21, an application for an authorization under a general permit, for an individual permit, or for a transition area waiver shall include the following material, in the number and format specified in the appropriate application checklist:

1. *A completed Property Owner Certification form.*

The signed Property Owner Certification form is included in *Appendix A*.

2. *Documentation that public notice of the application has been provided in accordance with N.J.A.C. 7:7A-17.*

Proof of public notice documentation is provided in *Appendix B*. Appendix B includes the Public Notice form, sample notification letter, newspaper notification, list of municipal and county officials to be notified, certified list of property owners and white certified mail receipts.

3. *The appropriate fee, set forth at N.J.A.C. 7:7A-18.*

NJDOT is exempt from Freshwater Wetlands Permit fees.

4. *Site plans, certified in accordance with N.J.A.C. 7:7A-16.7(a)4, which include the existing features, proposed regulated activities, topography, and soil erosion and sediment control details.*

Proposed and existing conditions as well as all regulated activities are shown on the NJDEP Freshwater Wetland Plans (Site Plans).

5. *Color photographs depicting the existing site conditions and the location of the proposed disturbance.*

Site photographs are provided in *Appendix B* of the Environmental Report.

6. *An environmental report prepared in accordance with N.J.A.C. 7:7A-16.8(b)4 including:*

- i. A narrative that describes the basic Project purpose of the proposed activity including whether it is water dependent;*

An Environmental Report including a detailed description of the Project, purpose and need, schedule total area of wetlands and proposed impacts is submitted under separate cover.

- ii. A copy of the deed and/or other legal documents pertaining to the site*

The proposed project is located within NJDOT right-of-way.

- iii. Maps (such as freshwater wetlands maps and USDA soil surveys) that provide an environmental inventory of the site;*

The following maps are included in the Environmental Report

- Regional Location Map (Figure 1)
- USGS Map (Figure 2)
- NRCS Soils map (Figure 3),
- NJDEP Wetland map (Figure 4) and
- NJDEP Landscape Project map (Figure 5).

- iv. Information regarding special aquatic sites, public lands, critical habitat, and other relevant environmental features of the site.*

The proposed Project area contains aquatic sites (including wetlands), public lands and threatened and endangered species habitat. Existing conditions within the project area are discussed in the Environmental Report.

- iv. An analysis of any potential temporary and/or permanent adverse environmental impact(s), whether onsite or offsite, of the proposed regulated activity or project on freshwater wetlands, State open waters, transition areas, fishery resources, and threatened or endangered species and their habitat.*

Impacts to freshwater wetlands, transition areas and State open waters are described in the Environmental Report P. Potential impacts to threatened or endangered species and their habitat is discussed in the Environmental Report.

- v. An alternatives analysis that allows the NJDEP to evaluate whether the requirements of N.J.A.C. 7:7A-10.2 are met, including:*

1. *A description of all other alternatives considered, including offsite alternatives as well as onsite alternatives that could minimize environmental impacts and the reasons for rejecting them, and*
2. *Information regarding the history of the property as a whole, as necessary to evaluate the cost to the property owner of various alternatives; and*

The route of the conduit was chosen to lessen impacts to environmental receptors. Crossing of ramps and under Rt. 23 will be done via jacking/boring to reduce impacts to the environment.

- vi. A description of all measures taken to reduce any potential adverse environmental impact(s) to the resources listed at (b)4iv above.*

Additional avoidance and minimization measures are provided in the Environmental Report.

7. *Color copies of the tax map for the property, county road map and USGS quad map.*

The following figures are included Environmental Report: Tax Map (*Appendix A*), County Road Map (Figure 2) and USGS Quad Map (Figure 1).

8. *Location of wetlands including all information necessary for a line delineation.*

Existing conditions, including results from the wetland delineation, are described in the Environmental Report and the completed Wetland Delineation Report (December 2022) is provided in the Environmental Report, *Appendix E*. Wetland boundaries are shown on the Freshwater Wetland Plans.

9. *Calculations and analyses to demonstrate compliance with the requirement of the Stormwater Management Rules (N.J.A.C. 7:8).*

Information regarding the Project's compliance with the Stormwater Management Rules is included under separate submission.

10. *Natural Heritage Program Letter including a Landscape Map report.*

A copy of the NJDEP, Office of Natural Lands Management Natural Heritage Database is provided in the Environmental Report, *Appendix D*. The Landscape Map is provided as Figure 5 of the Environmental Report.

11. *For an activity that requires mitigation in accordance with N.J.A.C. 7:7A, the applicant may submit a mitigation proposal as part of the application for the individual permit.*

The proposed project will not result in greater than 0.1 acre of permanent wetland impact. Thus no mitigation plan for the proposed permanent impacts is anticipated. Mitigation for temporary impacts to wetlands, transition areas will be to restore grade to pre construction elevations and plant with a seed mix.

12. *Additional requirements including proof of ownership, a Phase IA historical and archaeological survey, and Highlands applicability determination.*

As the project is within the NJDOT right-of-way, anticipated impacts to historic resources is minimal. Coordination with SHPO, if required, will be conducted. A Highlands exemption is being requested.

PART V. COMPLIANCE WITH FLOOD HAZARD AREA REQUIREMENTS

A separate submission showing compliance with Flood Hazard Area regulations identified in the statewide permit issued February 16, 2023 will be generated. This statewide permit authorizes the New Jersey Department of Transportation to perform continued maintenance and repair of infrastructure located within the NJDOT roadway right(s)-of-way; including installation of underground ITS, electric, and communication utilities.

1.0 PROJECT VERTICAL DATUM

The vertical datum for this Project's survey is the North American Vertical Datum of 1988 (NAVD88). To convert from NAVD88 to the National Geodetic Vertical Datum of 1929 (NGVD29) within the Project, the following conversion can be used:

$$\text{NGVD29 elevation (in feet)} = \text{NAVD88 elevation (in feet)} + (+0.885) \text{ feet}$$

This conversion factor was determined using the NGS Coordinate Conversion and Transformation Tool (NCAT) from the National Geodetic Survey.

Part VI. Compliance with the Stormwater Management Rules

The project is considered a “Major Development” as defined by the New Jersey Stormwater Management Rules at N.J.A.C. 7:8, stormwater design is being prepared and reviewed as part of NJDOT’s self certifying process.

However, the installation of the structures is exempt from the groundwater recharge, stormwater runoff quantity, and stormwater runoff quality requirements required for a “Major Development”.

Composite construction mats will be utilized in wetlands and transition areas to avoid ground disturbance. For these types of disturbances, groundwater recharge, stormwater runoff quantity, and stormwater runoff quality requirements are typically not calculated for the short time frame associated with the impacts as conditions are restored to existing conditions upon completion.

Part VI. Compliance with Water Quality Requirements

The NJDEP DLRP is responsible for implementing the Section 401 Water Quality Certification (WQC) program under the federal Clean Water Act. Projects requiring a federal permit or license for the discharge of dredged or fill material into SOWs and/or wetlands require a WQC from the state. The purpose of the WQC is to ensure that all federal permit activities are consistent with the New Jersey Surface Water Quality Standards (N.J.A.C. 7:9B-1.1 et seq.) and NJDEP rules related to water quality management, including the NJDEP Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A et seq.).

This Project requires a Federal Clean Water Act permit and therefore, will require issuance of a NJDEP DLRP WQC. The application includes a request for a WQC.

PART VII. QUALIFICATIONS OF PREPARERS

David Brightbill, PWS – Earth & Environment - Senior Environmental Scientist
B.S. Environmental Resource Management, Pennsylvania State University, 2009

Craig Hanlon, PWS, CE - Earth & Environment - Principal Environmental Scientist
B.S. Environmental Studies/Cartography, Slippery Rock University, 1992
A.S. Wildlife Management, Pennsylvania State University, 1990

APPENDICES

APPENDIX A PERMIT APPLICATION CHECKLIST

FRESHWATER WETLANDS APPLICATION CHECKLIST

General Permit 2—Underground utility lines

CALL NJDEP AT (609) 777-0454 IF YOU HAVE ANY QUESTIONS

All applications for authorization under general permit 2 must be submitted electronically through the submission system at <https://njdeponline.com>. Follow the registration process and create an account. To apply, select the service "Apply for a Land Use Permit or Authorization."

For more information on submitting an electronic application, visit <https://dep.nj.gov/wlm/eservices/lrp-eservices/#lup>.

CALL NJDEP AT (609) 777-0454 IF YOU HAVE ANY QUESTIONS

1. A completed [Property Owner Certification form](#)

- Acceptable file formats include pdf, jpg, and png.

2. Public Notice:

A completed [Public Notice form](#). All documentation necessary to demonstrate that notice of the application has been provided in accordance with N.J.A.C. 7:7A-17 must be attached to the form (see below for details).

- Acceptable file formats include pdf, jpg, and png.

Documentation of public notice is required as follows:

i. [Notice to municipal clerk \(N.J.A.C. 7:7A-17.3\(a\)\)](#)

A copy of the entire application, as submitted to the Department, must be provided to the municipal clerk in each municipality in which the site is located. The application consists of a description of the project, the specific permit(s)/authorization(s) being sought, and all items that will be uploaded to the online service, including all required items on this checklist.

- Documentation of compliance with this requirement shall consist of a copy of the certified United States Postal Service white mailing receipt, or other written receipt, for each copy of the application sent.

ii. [Notice to governmental entities and property owners \(N.J.A.C. 7:7A-17.3\(b\) and \(c\)\)](#)

A brief description of the proposed project, a legible copy of the site plan, and the form notice letter described at N.J.A.C. 7:7A-17.3(e)1iii must be sent to the following recipients:

- A. The construction official of each municipality in which the site is located;
- B. The environmental commission, or other government agency with similar responsibilities, of each municipality in which the site is located;
- C. The planning board of each municipality in which the site is located;
- D. The planning board of each county in which the site is located;

E. The local Soil Conservation District if the regulated activity or project will disturb 5,000 square feet or more of land; and

F. Adjacent property owners:

If the application is for one of the following projects (listed at N.J.A.C 7:7A-17.3(c)1-5), notice shall be sent to all owners of real property, including easements, located within 200 feet of any proposed above-ground structure, except for any conveyance lines suspended above the ground or small utility support structures (e.g. telephone poles):

- A linear project of one-half mile or longer
- A trail or boardwalk of one-half mile or longer
- A public project on a site of 50 acres or more
- An industrial or commercial project on a site of 100 acres or more
- A project to remove sediment or debris from a channel of one-half mile or longer

For any other project, notice shall be sent to all owners of real property, including easements, located within 200 feet of the site of the proposed regulated activity.

The owners of real property, including easements, shall be those on a list that was certified by the municipality, with a date of certification no more than one year prior to the date the application is submitted.

- Documentation of compliance with this requirement shall consist of:
 1. A copy of the certified United States Postal Service white mailing receipt for each public notice that was mailed, or other written receipt;
 2. A certified list of all owners of real property, including easements, located within 200 feet of the property boundary of the site (including name, mailing address, lot, and block) prepared by the municipality for each municipality in which the project is located. The date of certification of the list shall be no earlier than one year prior to the date the application is submitted to the Department; and
 3. A copy of the form notice letter.
- The form notice letter required under N.J.A.C. 7:7A-17.3(e)1iii shall read as follows:

"This letter is to provide you with legal notification that an application for an authorization under freshwater wetlands general permit 2 <<has been/will be>> submitted to the New Jersey Department of Environmental Protection, Division of Land Resource Protection for the development shown on the enclosed plan(s). A brief description of the proposed project follows: <<INSERT DESCRIPTION OF THE PROPOSED PROJECT>>

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:

*New Jersey Department of Environmental Protection
Division of Land Resource Protection
P.O. Box 420, Code 501-02A
Trenton, New Jersey 08625
Attn: (Municipality in which the property is located) Supervisor"*

 iii. Newspaper notice (N.J.A.C. 7:7A-17.4)

Newspaper notice, in the form of a legal notice or display advertisement in the official newspaper of the municipality(ies) in which the project site is located, or if no official newspaper exists, in a newspaper with general circulation in the municipality(ies), is required for the following projects:

- A. A linear project of one-half mile or longer
- B. A shore protection development, including beach nourishment, beach and dune maintenance, or dune creation of one-half mile or longer
- C. A public project on a site of 50 acres or more
- D. An industrial or commercial project on a site of 100 acres or more
- E. Maintenance dredging of a State navigation channel of one-half mile or longer

If your project is not one listed above, newspaper notice is not required.

- Documentation of newspaper notice shall consist of:
 - 1. A copy of the published newspaper notice; and
 - 2. The date and name of the newspaper in which notice was published.
- The newspaper notice may be either a legal notice or display advertisement and must read as follows:

"Take notice that an application for an authorization under freshwater wetlands general permit 2 <<has been/ will be>> submitted to the New Jersey Department of Environmental Protection, Division of Land Resource Protection for the development described below:

APPLICANT:

PROJECT NAME:

PROJECT DESCRIPTION:

PROJECT STREET ADDRESS:

BLOCK: LOT:

MUNICIPALITY: COUNTY:

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of the date of this notice to:

*New Jersey Department of Environmental Protection
Division of Land Resource Protection
P.O. Box 420, Code 501-02A
501 East State Street
Trenton, New Jersey 08625
Attn: (Municipality in which the property is located) Supervisor"*

3. Application fees:

N/A

The appropriate application fee, as specified in N.J.A.C. 7:7A-18.1, payable through the online service via credit card or e-check, or to receive a bill, select "Bill Me" on the payment screen. Bills will be sent to the Fee Billing Contact identified in the service and must be paid directly to the Department of Treasury.

4. Site plans:

All site plans must include the scale of the site plans, a north arrow, the name of the person who prepared the plans, date the site plans were prepared, and the applicant's name and the block, lot, and municipality in which the site is located. In addition, the site plans shall include the following information, both on and adjacent to the site, in accordance with N.J.A.C. 7:7A-16.7(a)4:

i. Existing features:

- A. Lot Lines and right of-way lines;
- B. Delineation of wetlands, transition areas, and State open waters;
- C. Buildings and structures;
- D. Any existing utility lines; and
- E. Land cover and vegetation.

ii. Proposed regulated activities:

- A. Changes in lot lines;
- B. Location and area of any freshwater wetlands, transition areas, and State open waters that will be disturbed, including permanent and temporary disturbance;
- C. Size, location, and detail of any proposed utility line;
- D. Size, location, and detail of permanently maintained clearing;
- E. Size, location, and detail of any proposed manholes or siphons;
- F. Size, location, and detail of any proposed trenches or pits; and
- G. Details of any planting to restore temporarily disturbed areas in accordance with N.J.A.C. 7:7A-11.8.

iii. Topography:

- A. Existing and proposed topography. All topography must reference NGVD or include the appropriate conversion factor to NGVD.

iv. Soil erosion and sediment control:

- A. Details of any proposed soil erosion and sediment control measures.

- Acceptable file formats include pdf and zip. Site plans must be certified in accordance with N.J.A.C. 7:7A-16.2(j) and prepared according to the Department's [site plan specifications](#) for electronic site plans. All plans must be digitally signed and sealed by a New Jersey licensed professional engineer, surveyor, or architect, as appropriate, pursuant to N.J.A.C. 13:40-7.2 through 7.4, with signatures and seals that meet the requirements of N.J.A.C. 13:40-8.1A. Site plans with electronic signatures, such as scans of site plans with a handwritten signature, will not be accepted.

5. Photographs:

i. Color photographs depicting:

- A. The existing site conditions; and
- B. The location of the proposed utility line or utility line maintenance.

ii. A photo location map showing the location and direction from which each photograph was taken.

- Acceptable file formats include pdf, doc, docx, jpg, zip, ppt, and pptx.

6. A compliance statement that includes the following:

- i. A description of the characteristics of the site and the location of all proposed regulated activities, potential impacts from the construction process, and, as applicable, any monitoring or reporting methods that will be used;
- ii. The total area, in acres, of wetlands and State open waters on the site before the regulated activity is performed, and the total area, in acres, of wetlands and State open waters, on the site that will remain after the regulated activity is performed;
- iii. A list of all limits and requirements of general permit 2 at N.J.A.C. 7:7A-7.2 that apply to the proposed activities and an explanation of how the activities comply with each requirement;

- iv. A list of all limits and requirements at N.J.A.C. 7:7A-5.7, Conditions applicable to an authorization pursuant to a general permit-by-certification or a general permit, that apply to the proposed activities and an explanation of how the activities comply with each requirement;
 - v. If a site is known or suspected to be contaminated with toxic substances, and if the Department requests it, a laboratory analysis of representative samples of the soil or sediment on the site;
 - vi. Documentation regarding when the lot that is the subject of the general permit was created by subdivision;
 - vii. A history of the ownership of the property beginning June 30, 1988 to present;
 - viii. A listing of contiguous lots that were in common ownership with the lot on which the activities are proposed and the ownership history of each lot beginning June 30, 1988 to present;
 - ix. If the site is located in a municipality with the endangered plant known as swamp pink (*Helonias bullata*), which are listed in [Known Locations of Swamp Pink in NJ](#), a signed statement from the applicant certifying that the proposed activities will not result in any direct or indirect adverse impacts to swamp pink or its documented habitat;
 - x. If the site is located in a municipality with the endangered bog turtle (these municipalities are listed in [Known Locations of Bog Turtles in NJ](#)), a signed statement from the applicant, certifying that the proposed activities will not result in any direct or indirect adverse impacts to bog turtles or to their documented habitat; and
 - xi. If the site is located in an area designated a Wild and Scenic River, or under study for such designation, a letter from the National Park Service approving the proposed activities.
- The compliance statement should be uploaded under the attachment type “Environmental Report with Site Location Maps.” Acceptable file formats include pdf, doc, docx, rtf, and zip.

7. Color copies of the following maps:

-  i. The tax map for the property;
 - ii. A copy of the portion of the county road map showing the property location; and
 - iii. A copy of the USGS quad map(s) that include the site, with the site clearly outlined to scale.
- The required maps should be uploaded with the compliance statement under the attachment type “Environmental Report with Site Location Maps.” Acceptable file formats include pdf, doc, docx, rtf, and zip.

8. Location of wetlands:

-  The location of wetlands must be provided through one of the following:
- i. Documentation that a line delineation or line verification Letter of Interpretation (LOI) has been issued for the site; or
 - ii. All information necessary for a line delineation or line verification LOI as required by the appropriate LOI checklist, covering the portion of the site that will be affected by the general permit activity.
- Acceptable file formats for an LOI include pdf, jpg, and png. If an appropriate LOI has not been issued for the site, the information required for a line delineation or line verification LOI should be included with the compliance statement under the attachment type “Environmental Report with Site Location Maps.”

9. Stormwater Management Analysis:

-  If the project is a major development as defined by N.J.A.C. 7:8-1.2, a demonstration of compliance with the requirements of the Stormwater Management Rules, N.J.A.C. 7:8, is required. Please see the

[Stormwater Management flow chart](#) to determine which version of the Stormwater Management rules applies to the application.

- All calculations or analyses submitted as part of an application must include the certification set forth at N.J.A.C. 7:7A-16.2(j). Acceptable file formats include pdf, doc, docx, rtf, and zip unless stormwater calculations are necessary. Stormwater drawings and calculations must be digitally signed and sealed by a New Jersey licensed professional engineer in accordance with N.J.A.C. 13:40-8.1A. Stormwater drawings and calculations with electronic signatures, such as scans of calculations with a handwritten signature, will not be accepted. Therefore, when calculations are necessary, the acceptable file formats are limited to pdf and zip.

10. Natural Heritage Program Letter:

✓ A copy of an NJDEP, Office of Natural Lands Management Natural Heritage Database data request response for endangered or threatened species of flora or fauna, including a Landscape Map report, if available

- Acceptable file formats include pdf, jpg, and png.

11. Mitigation:

- ✓
- i. For permanent disturbance of less than 0.1 acres: a demonstration that all activities have been designed to avoid and minimize impacts to wetlands. If this demonstration is not provided, a mitigation plan that meets the requirements of N.J.A.C. 7:7A-11 must be submitted at least 90 calendar days before commencing any approved activities; and
 - ii. For permanent disturbance of 0.1 acres or greater, a mitigation plan that meets the requirements of N.J.A.C. 7:7A-11 must be submitted at least 90 calendar days before commencing any approved activities.
- If a mitigation plan is necessary and is available at the time of submission, the service will provide an attachment type for "Mitigation Proposal." Alternatively, it may be uploaded separately at a later time through the service "Submit Additional Information for a Land Use Permit or Authorization." Acceptable file formats include pdf, doc, docx, rtf, and zip. If the demonstration that all activities have been designed to avoid and minimize impacts to wetlands is applicable, it should be included with the compliance statement and uploaded under the attachment type "Environmental Report with Site Location Maps."

12. Additional requirements:

- N/A
- i. Proof of ownership, such as a deed, if available – applies only if the current owner purchased the property before June 30, 1988
 - Acceptable file formats include pdf, jpg, and png.
 - ii. A Phase IA historical and archaeological survey, and an architectural survey, defined at N.J.A.C. 7:7A-1.3 – applies only if the application reflects any of the characteristics at N.J.A.C. 7:7A-19.5(l)
 - Acceptable file formats include pdf, doc, docx, rtf, and zip.
 - ✓ iii. Highlands applicability determination (highlands exemption) – applies only if the project is located within the Highlands Preservation Area
 - Acceptable file formats include pdf, jpg, and png.
 - N/A iv. Conservation restriction – applies only if the proposed project is subject to an existing conservation restriction
 - Acceptable file formats include pdf, jpg, and png.

- N/A** v. Written consent from municipality – applies only if the project includes a gas pipeline and any section of that pipeline is located within a municipally-owned right-of-way. Written consent shall consist of one of the following:
- A. Written consent from the municipality in the form of a resolution of the governing body or an ordinance
 - B. A municipal designation of the route pursuant to N.J.S.A. 48:9-25.4
 - C. A Board of Public Utilities designation of route pursuant to N.J.S.A. 48:9-25.4
- Acceptable file formats include pdf, jpg, and png.

FRESHWATER WETLANDS APPLICATION CHECKLIST

General Permit 21— Above ground utility lines

CALL NJDEP AT (609) 777-0454 IF YOU HAVE ANY QUESTIONS

All applications for authorization under general permit 21 must be submitted electronically through the submission system at <https://njdeponline.com>. Follow the registration process and create an account. To apply, select the service "Apply for a Land Use Permit or Authorization."

For more information on submitting an electronic application, visit <https://dep.nj.gov/wlm/eservices/lrp-eservices/#lup>.

CALL NJDEP AT (609) 777-0454 IF YOU HAVE ANY QUESTIONS

1. A completed [Property Owner Certification form](#)

- Acceptable file formats include pdf, jpg, and png.

2. Public notice:

A completed [Public Notice form](#). All documentation necessary to demonstrate that notice of the application has been provided in accordance with N.J.A.C. 7:7A-17 must be attached to the form (see below for details).

- Acceptable file formats include pdf, jpg, and png.

Documentation of public notice is required as follows:

i. Notice to municipal clerk (N.J.A.C. 7:7A-17.3(a))

A copy of the entire application, as submitted to the Department, must be provided to the municipal clerk in each municipality in which the site is located. The application consists of a description of the project, the specific permit(s)/authorization(s) being sought, and all items that will be uploaded to the online service, including all required items on this checklist.

- Documentation of compliance with this requirement shall consist of a copy of the certified United States Postal Service white mailing receipt, or other written receipt, for each copy of the application sent.

ii. Notice to governmental entities and property owners (N.J.A.C. 7:7A-17.3(b) and (c))

A brief description of the proposed project, a legible copy of the site plan, and the form notice letter described at N.J.A.C. 7:7A-17.3(e)1iii must be sent to the following recipients:

- A. The construction official of each municipality in which the site is located;
- B. The environmental commission, or other government agency with similar responsibilities, of each municipality in which the site is located;
- C. The planning board of each municipality in which the site is located;

- D. The planning board of each county in which the site is located;
- E. The local Soil Conservation District if the regulated activity or project will disturb 5,000 square feet or more of land; and

F. Adjacent property owners:

If the application is for one of the following projects (listed at N.J.A.C 7:7A-17.3(c)1-5), notice shall be sent to all owners of real property, including easements, located within 200 feet of any proposed above-ground structure, except for any conveyance lines suspended above the ground or small utility support structures (e.g. telephone poles):

- A linear project of one-half mile or longer
- A trail or boardwalk of one-half mile or longer
- A public project on a site of 50 acres or more
- An industrial or commercial project on a site of 100 acres or more
- A project to remove sediment or debris from a channel of one-half mile or longer

For any other project, notice shall be sent to all owners of real property, including easements, located within 200 feet of the site of the proposed regulated activity.

The owners of real property, including easements, shall be those on a list that was certified by the municipality, with a date of certification no more than one year prior to the date the application is submitted.

- Documentation of compliance with this requirement shall consist of:
 1. A copy of the certified United States Postal Service white mailing receipt for each public notice that was mailed, or other written receipt;
 2. A certified list of all owners of real property, including easements, located within 200 feet of the property boundary of the site (including name, mailing address, lot, and block) prepared by the municipality for each municipality in which the project is located. The date of certification of the list shall be no earlier than one year prior to the date the application is submitted to the Department; and
 3. A copy of the form notice letter.
- The form notice letter required under N.J.A.C. 7:7A-17.3(e)1iii shall read as follows:

"This letter is to provide you with legal notification that an application for an authorization under freshwater wetlands general permit 21 <<has been/will be>> submitted to the New Jersey Department of Environmental Protection, Division of Land Resource Protection for the development shown on the enclosed plan(s). A brief description of the proposed project follows: <<INSERT DESCRIPTION OF THE PROPOSED PROJECT>>

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:

*New Jersey Department of Environmental Protection
Division of Land Resource Protection
P.O. Box 420, Code 501-02A
Trenton, New Jersey 08625
Attn: (Municipality in which the property is located) Supervisor"*

iii. Newspaper notice (N.J.A.C. 7:7A-17.4)

Newspaper notice, in the form of a legal notice or display advertisement in the official newspaper of the municipality(ies) in which the project site is located, or if no official newspaper exists, in a newspaper with general circulation in the municipality(ies), is required for the following projects:

- A. A linear project of one-half mile or longer
- B. A shore protection development, including beach nourishment, beach and dune maintenance, or dune creation of one-half mile or longer
- C. A public project on a site of 50 acres or more
- D. An industrial or commercial project on a site of 100 acres or more
- E. Maintenance dredging of a State navigation channel of one-half mile or longer

If your project is not one listed above, newspaper notice is not required.

- Documentation of newspaper notice shall consist of:
 - 1. A copy of the published newspaper notice; and
 - 2. The date and name of the newspaper in which notice was published.
- The newspaper notice may be either a legal notice or display advertisement and must read as follows:

"Take notice that an application for an authorization under freshwater wetlands general permit 21 <<has been/ will be>> submitted to the New Jersey Department of Environmental Protection, Division of Land Resource Protection for the development described below:

APPLICANT:

PROJECT NAME:

PROJECT DESCRIPTION:

PROJECT STREET ADDRESS:

BLOCK: LOT:

MUNICIPALITY: COUNTY:

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. Please submit your written comments within 15 calendar days of the date of this notice to :

*New Jersey Department of Environmental Protection
Division of Land Resource Protection
P.O. Box 420, Code 501-02A
501 East State Street
Trenton, New Jersey 08625
Attn: (Municipality in which the property is located) Supervisor"*

3. Application fees:

N/A
The appropriate application fee, as specified in N.J.A.C. 7:7A-18.1, payable through the online service via credit card or e-check, or to receive a bill, select "Bill Me" on the payment screen. Bills will be sent to the Fee Billing Contact identified in the service and must be paid directly to the Department of Treasury.

4. Site plans:

All site plans must include the scale of the site plans, a north arrow, the name of the person who prepared the plans, date the site plans were prepared, and the applicant's name and the block, lot, and municipality in which the site is located. In addition, the site plans shall include the following information, both on and adjacent to the site, in accordance with N.J.A.C. 7:7A-16.7(a)4:

- i. Existing features:
 - A. Lot Lines and right of-way lines;
 - B. Delineation of wetlands, transition areas, and State open waters;
 - C. Land cover and vegetation.
 - ii. Proposed regulated activities:
 - A. Changes in lot lines;
 - B. Location and area of freshwater wetlands, transition areas, and/or State open waters disturbed, including temporary and permanent disturbance;
 - C. Size, location, and details of proposed utility line and associated clearing;
 - D. Size, location, and details of access points;
 - E. Details of any restoration of temporarily disturbed areas in accordance with and N.J.A.C. 7:7A-11.8.
 - iii. Topography:
 - A. Existing and proposed topography. All topography must reference NGVD or include the appropriate conversion factor to NGVD.
 - iv. Soil erosion and sediment control:
 - A. Details of any proposed soil erosion and sediment control measures.
- Acceptable file formats include pdf and zip. Site plans must be certified in accordance with N.J.A.C. 7:7A-16.2(j) and prepared according to the Department's [site plan specifications](#) for electronic site plans. All plans must be digitally signed and sealed by a New Jersey licensed professional engineer, surveyor, or architect, as appropriate, pursuant to N.J.A.C. 13:40-7.2 through 7.4, with signatures and seals that meet the requirements of N.J.A.C. 13:40-8.1A. Site plans with electronic signatures, such as scans of site plans with a handwritten signature, will not be accepted.

5. Photographs:

- i. Color photographs depicting:
 - A. The existing site conditions; and
 - B. The location of utility lines, clearing, and access.
 - ii. A photo location map showing the location and direction from which each photograph was taken.
- Acceptable file formats include pdf, doc, docx, jpg, zip, ppt, and pptx.

6. A compliance statement that includes the following:

- i. A description of the characteristics of the site and the location of all proposed regulated activities, potential impacts from the construction process, and, as applicable, any monitoring or reporting methods that will be used;
- ii. The total area, in acres, of wetlands and State open waters on the site before the regulated activity is performed, and the total area, in acres, of wetlands and State open waters, on the site that will remain after the regulated activity is performed;

- iii. A list of all limits and requirements of general permit 21 at N.J.A.C. 7:7A-7.21 that apply to the proposed activities and an explanation of how the activities comply with each requirement;
 - iv. A list of all limits and requirements at N.J.A.C. 7:7A-5.7, Conditions applicable to an authorization pursuant to a general permit-by-certification or a general permit, that apply to the proposed activities and an explanation of how the activities comply with each requirement;
 - v. If a site is known or suspected to be contaminated with toxic substances, and if the Department requests it, a laboratory analysis of representative samples of the soil or sediment on the site;
 - vi. Documentation regarding when the lot that is the subject of the general permit was created by subdivision;
 - vii. A history of the ownership of the property beginning June 30, 1988 to present;
 - viii. A listing of contiguous lots that were in common ownership with the lot on which the activities are proposed and the ownership history of each lot beginning June 30, 1988 to present;
 - ix. If the site is located in a municipality with the endangered plant known as swamp pink (*Helonias bullata*), which are listed in [Known Locations of Swamp Pink in NJ](#), a signed statement from the applicant certifying that the proposed activities will not result in any direct or indirect adverse impacts to swamp pink or its documented habitat;
 - x. If the site is located in a municipality with the endangered bog turtle (these municipalities are listed in [Known Locations of Bog Turtles in NJ](#)), a signed statement from the applicant, certifying that the proposed activities will not result in any direct or indirect adverse impacts to bog turtles or to their documented habitat; and
 - xi. If the site is located in an area designated a Wild and Scenic River, or under study for such designation, a letter from the National Park Service approving the proposed activities.
- The compliance statement should be uploaded under the attachment type “Environmental Report with Site Location Maps.” Acceptable file formats include pdf, doc, docx, rtf, and zip.

7. Color copies of the following maps:

- i. The tax map for the property;
 - ii. A copy of the portion of the county road map showing the property location; and
 - iii. A copy of the USGS quad map(s) that includes the site, with the site clearly outlined to scale.
- The required maps should be uploaded with the compliance statement under the attachment type “Environmental Report with Site Location Maps.” Acceptable file formats include pdf, doc, docx, rtf, and zip.

8. Location of wetlands:

- The location of wetlands must be provided through one of the following:
- i. Documentation that a line delineation or line verification Letter of Interpretation (LOI) has been issued for the site; or
 - ii. All information necessary for a line delineation or line verification LOI as required by the appropriate LOI checklist, covering the portion of the site that will be affected by the general permit activity.
- Acceptable file formats for an LOI include pdf, jpg, and png. If an appropriate LOI has not been issued for the site, the information required for a line delineation or line verification LOI should be included with the compliance statement under the attachment type “Environmental Report with Site Location Maps.”

9. Stormwater Management Analysis:

If the project is a major development as defined by N.J.A.C. 7:8-1.2, a demonstration of compliance with the requirements of the Stormwater Management Rules, N.J.A.C. 7:8, is required. Please see the [Stormwater Management flow](#) chart to determine which version of the Stormwater Management rules applies to the application.

- All calculations or analyses submitted as part of an application must include the certification set forth at N.J.A.C. 7:7A-16.2(j). Acceptable file formats include pdf, doc, docx, rtf, and zip unless stormwater calculations are necessary. Stormwater drawings and calculations must be digitally signed and sealed by a New Jersey licensed professional engineer in accordance with N.J.A.C. 13:40-8.1A. Stormwater drawings and calculations with electronic signatures, such as scans of calculations with a handwritten signature, will not be accepted. Therefore, when calculations are necessary, the acceptable file formats are limited to pdf and zip.

10. Natural Heritage Program Letter:

✓ A copy of an NJDEP, Office of Natural Lands Management Natural Heritage Database data request response for endangered or threatened species of flora or fauna, including a Landscape Map report, if available

- Acceptable file formats include pdf, jpg, and png.

11. Mitigation:

- ✓
- i. For permanent disturbance of less than 0.1 acres: a demonstration that all activities have been designed to avoid and minimize impacts to wetlands. If this demonstration is not provided, a mitigation plan that meets the requirements of N.J.A.C. 7:7A-11 must be submitted at least 90 calendar days before commencing any approved activities
 - ii. For permanent disturbance of 0.1 acres or greater, a mitigation plan that meets the requirements of N.J.A.C. 7:7A-11 must be submitted at least 90 calendar days before commencing any approved activities
- If a mitigation plan is necessary and is available at the time of submission, the service will provide an attachment type for "Mitigation Proposal." Alternatively, it may be uploaded separately at a later time through the service "Submit Additional Information for a Land Use Permit or Authorization." Acceptable file formats include pdf, doc, docx, rtf, and zip. If the demonstration that all activities have been designed to avoid and minimize impacts to wetlands is applicable, it should be included with the compliance statement and uploaded under the attachment type "Environmental Report with Site Location Maps."

12. Additional requirements:

N/A i. Proof of ownership, such as a deed, if available – applies only if the current owner purchased the property before June 30, 1988

- Acceptable file formats include pdf, jpg, and png.

N/A ii. A Phase IA historical and archaeological survey, and an architectural survey, defined at N.J.A.C. 7:7A-1.3 – applies only if the application reflects any of the characteristics at N.J.A.C. 7:7A-19.5(l)

- Acceptable file formats include pdf, doc, docx, rtf, and zip.

✓ iii. Highlands applicability determination (highlands exemption) – applies only if the project is located within the Highlands Preservation Area

- Acceptable file formats include pdf, jpg, and png.

N/A iv. Conservation restriction – applies only if the proposed project is subject to an existing conservation restriction

- Acceptable file formats include pdf, jpg, and png.

N/A v.

Written consent from municipality – applies only if the project includes a gas pipeline and any section of that pipeline is located within a municipally-owned right-of-way. Written consent shall consist of one of the following:

- A. Written consent from the municipality in the form of a resolution of the governing body or an ordinance
 - B. A municipal designation of the route pursuant to N.J.S.A. 48:9-25.4
 - C. A Board of Public Utilities designation of route pursuant to N.J.S.A. 48:9-25.4
- Acceptable file formats include pdf, jpg, and png.

APPENDIX B

PROPERTY OWNER CERTIFICATION

New Jersey Department of Environmental Protection
Land Use Management Program
Division of Land Use Regulation

PROPERTY OWNER CERTIFICATION

INSTRUCTIONS: All applicants are required to complete Sections A and B of this form. Applicants who are individual owners of record of the property upon which the activities will occur must also complete Section C.

All other persons who are required to certify to this application in accordance with N.J.A.C. 7:7-23.2(d), N.J.A.C. 7:7A-16.2(d), and N.J.A.C. 7:13-18.2(d) must complete Sections A and C.

Separate forms may be submitted for each signatory, or a single form may be submitted with all required signatures.

SECTION A. SITE INFORMATION (required)

Project Name: _____

Applicant's Name: _____

Street Address: _____

Municipality: _____ County: _____ Zip Code: _____

Blocks and Lots: _____

SECTION B. SIGNATURE OF APPLICANT

The undersigned applicant hereby certifies that he/she is one of the following: 1) an owner of the site on which the activity is proposed or conducted; 2) an agent designated by the site owner(s) to obtain the permit, verification, or letter of interpretation on the owner's behalf; 3) a representative of a public entity proposing an activity within a right-of-way or easement that is held or controlled by that entity or that will be appropriated by the entity under the power of eminent domain; OR 4) a person with the legal authority to perform the proposed activities.

The undersigned applicant also certifies to the following:

1. Does the application include any activities within an easement or right-of-way? ☐ Yes ☐ No
If "Yes," has written consent from all easement or right-of-way holders in accordance with
N.J.A.C. 7:7-23.2(g), 7:7A-16.2(g), and 7:13-18.2(g) been attached to this form? ☐ Yes ☐ No
2. Will any part of the project be located within property belonging to the State of New Jersey? ☐ Yes ☐ No
3. Does the application include activities on any property owned by any public agency that would
be encumbered by Green Acres? ☐ Yes ☐ No
4. Does this project require a Section 106 (National Register of Historic Places) Determination as
part of a federal approval? ☐ Yes ☐ No

Applicant's Name: _____ Date: _____

Applicant's Signature: _____

Applicant's Name: _____ Date: _____

Applicant's Signature: _____

Applicant's Name: _____ Date: _____

Applicant's Signature: _____

Applicant's Name: _____ Date: _____

Applicant's Signature: _____

SECTION C. PROPERTY OWNER'S CERTIFICATION

All individual owners of record of the property upon which the activities will occur must certify to this application unless the applicant is a corporation, partnership, sole proprietorship, municipality, or State, Federal, or other public entity. If the applicant is a corporation, a principal executive officer of at least the level of vice president must certify below. In the case of partnerships and sole proprietorships, a general partner or the proprietor, respectively, is required to certify. For a municipality or for a State, Federal, or other public entity, the certification must be provided by either a principal executive officer or ranking elected official.

A duly authorized representative may sign this application on behalf of any individual who is required to certify provided that the authorization is made in writing and is submitted as part of this application. Please note that in lieu of a property owner's signature, a legal agreement with the current property owner may be attached to this form. Acceptable legal agreements include, but are not limited to, certificates of eminent domain and certificates of inverse condemnation. **Please note that contracts of sale are not considered an acceptable substitute for a property owner's signature.**

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining and preparing the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for knowingly submitting false information, including the possibility of fine and imprisonment. I hereby grant permission for the conduct of the proposed activities and consent to allow access to the site by representatives or agents of the Department for the purpose of conducting a site inspection(s) of the property in question.

CERTIFIED LIST OF PROPERTY OWNERS
CERTIFIED MAIL RECEIPTS (WHITE)

New Jersey Department of Environmental Protection
Land Use Management Program
Division of Land Use Regulation
PUBLIC NOTICE

SECTION A. SITE INFORMATION

Applicant's Name: _____
Street Address: _____
Municipality: _____ County: _____ Zip Code: _____
Blocks and Lots: _____

SECTION B. STANDARD NOTICE REQUIREMENTS

Except as provided at item 6 below, public notice of the application shall be provided no more than 30 calendar days prior to submitting the application and no later than the date the application is submitted to the Department.

1. Public notice is required for all of the following (*check all that apply*):

- ☐ A flood hazard area general permit authorization (except general permit 1)
- ☐ A flood hazard area individual permit
- ☐ A flood hazard area verification
- ☐ A coastal general permit authorization
- ☐ A CAFRA individual permit
- ☐ An in-water waterfront development individual permit
- ☐ An upland waterfront development individual permit
- ☐ A coastal wetlands individual permit
- ☐ A freshwater wetlands individual permit
- ☐ A freshwater wetlands transition area waiver
- ☐ A freshwater wetlands general permit authorization (except general permit 15)
- ☐ A freshwater wetlands general permit 15 (**please skip to [Section C](#)**)

2. Has a copy of the entire application been sent to the municipal clerk of each municipality in which the proposed activity or project is located? ☐ Yes ☐ No

Note: For electronic submissions, the application consists of a description of the project, which must include the lot and block, municipality, and county, the specific permit(s)/authorization(s) being sought, and all items that will be uploaded to the submission service, including all required items on the applicable application checklist(s).

If "**Yes**," did you attach a copy of the certified United States Postal Service white mailing receipt, or other written receipt, and a copy of any letter sent with the application to this form? ☐ Yes ☐ No

3. Have both a notice letter, including a brief description of the proposed activity or project, and a legible copy of the site plans been sent to the all following applicable agencies? ☐ Yes ☐ No

- The construction official of each municipality in which the site is located
- The environmental commission, or other government agency with similar responsibilities, of each municipality in which the site is located
- The planning board of each municipality in which the site is located
- The planning board of each county in which the site is located

If "**Yes**," did you attach **both** of the following to this form? ☐ Yes ☐ No

- A copy of the certified United States Postal Service white mailing receipt or other written receipt
- A copy of the notice letter

4. Is the application for a coastal permit for an activity within the 12-mile circle with Delaware, as described at N.J.A.C. 7:7-1.2(c), or within 200 feet of the 12-mile circle? ☐ Yes ☐ No
- If "Yes," have both a notice letter, including a brief description of the proposed activity or project, and a legible copy of the site plans been sent to the State of Delaware, Department of Natural Resources & Environmental Control, Delaware Coastal Management Program, 89 Kings Highway, Dover, DE 19901? ☐ Yes ☐ No
- If "Yes," did you attach **both** of the following to this form? ☐ Yes ☐ No
- A copy of the certified United States Postal Service white mailing receipt or other written receipt
 - A copy of the notice letter
5. Is the application for a waterfront development individual permit to install a submarine cable in the ocean or to perform sand mining in the ocean? ☐ Yes ☐ No
- If "Yes," have you submitted a description of the project, the specific permit(s)/authorization(s) being sought, and a copy of the NOAA nautical chart showing the proposed cable route or the limits of the proposed sand mining area to **all** of the following entities? ☐ Yes ☐ No
- Garden State Seafood Association
 - National Fisheries Institute
 - North Atlantic Clam Association
 - Rutgers Cooperative Extension
 - New Jersey Shellfisheries Council
 - New Jersey Marine Fisheries Council
6. Does the application include a CAFRA individual permit? ☐ Yes ☐ No
- If "No," skip to Question 7.
- If "Yes," has newspaper notice, consisting of a legal notice or display advertisement, been published in the official newspaper of the municipality in which the site is located or a newspaper of general circulation in the municipality? ☐ Yes ☐ No
- If "Yes," did you attach a copy of the published newspaper notice, the date of publication, and the name of the newspaper to this form? ☐ Yes ☐ No
- If "No," did you verify that a newspaper notice, consisting of a legal notice or display advertisement, will be published in the official newspaper of the municipality in which the site is located or a newspaper of general circulation in the municipality no more than **10 calendar days** after the application is submitted to the Department? ☐ Yes ☐ No
- Note:** A copy of the published newspaper notice, the date of publication, and the name of the newspaper must be submitted to the Department within this timeframe.
7. Does the application include one or more of the activities listed below (**other than those proposed in a freshwater wetlands individual permit application**)? ☐ Yes ☐ No
- A delineation of one-half mile or longer of a regulated water
 - A mosquito control activity subject to flood hazard general permit 2
 - A linear project of one-half mile or longer
 - A shore protection development, including beach nourishment, beach and dune maintenance, or dune creation of one-half mile or longer
 - A public development on a site of 50 acres or more
 - An industrial or commercial development on a site of 100 acres or more
 - A project to remove sediment or debris from a channel of one-half mile or longer
 - Maintenance dredging of a State navigation channel of one-half mile or longer
 - A trail or boardwalk of one-half mile or longer subject to a freshwater wetlands general permit or transition area waiver

If you answered "**No**," to question 7:

Have both a notice letter, including a brief description of the proposed activity or project, and a legible copy of the site plans been sent to all owners of real property, including easements, located **within 200 feet of the property boundary of the site**? ☐ Yes ☐ No

If "**Yes**," did you attach **all** of the following to this form? ☐ Yes ☐ No

- A copy of the certified United States Postal Service white mailing receipt or other written receipt
- A copy of the notice letter
- A certified list of all owners of real property, including easements, within 200 feet of the property boundary, prepared by the municipality with a date of certification no earlier than one year prior to the date of the application

If you answered "**Yes**," to question 7, answer questions I. and II. below:

I. Have both a notice letter, including a brief description of the proposed activity or project, and a legible copy of the site plans been sent to all owners of property, including easements, **within 200 feet of any proposed above-ground structure**? ☐ Yes ☐ No

If "**Yes**," did you attach **all** of the following to this form? ☐ Yes ☐ No

- A copy of the certified United States Postal Service white mailing receipt or other written receipt
- A copy of the notice letter
- A certified list of all owners of real property, including easements, within 200 feet of the property boundary, prepared by the municipality with a date of certification no earlier than one year prior to the date of the application

II. For all applications, **except CAFRA individual permits**, has newspaper notice, consisting of a legal notice or display advertisement been published in the official newspaper of the municipality in which the site is located or a newspaper of general circulation in the municipality? ☐ Yes ☐ No

If "**Yes**," did you attach a copy of the published newspaper notice, the date of publication, and the name of the newspaper to this form? ☐ Yes ☐ No

8. Will the proposed activity or project disturb 5,000 square feet of land or more? ☐ Yes ☐ No

If "**Yes**," have both a notice letter, including a brief description of the proposed activity or project, and a legible copy of the site plans been sent to the local Soil Conservation District? ☐ Yes ☐ No

If "**Yes**," did you attach a copy of the certified United States Postal Service white mailing receipt or other written receipt **and** a copy of the notice letter to this form? ☐ Yes ☐ No

9. Is the proposed activity or project located within the Pinelands Area as designated under the Pinelands Protection Act at N.J.S.A. 13:18A-11(a)? ☐ Yes ☐ No

If "**Yes**," you are also required to complete [Section D](#) of this form.

10. Does the application include a freshwater wetlands individual permit application? ☐ Yes ☐ No

If "**No**," skip to Question 11.

If "**Yes**," does the proposed project involve more than 10 acres of fill? ☐ Yes ☐ No

If "**Yes**," has newspaper notice been published in a newspaper with regional circulation in the region in which the site is located? ☐ Yes ☐ No

If "**Yes**," did you attach a copy of the published newspaper notice, the date of publication, and the name of the newspaper to this form? ☐ Yes ☐ No

If "**No**," has newspaper notice consisting of a legal notice or display advertisement been published in the official newspaper of the municipality in which the site is located or a newspaper of general circulation in the municipality? ☐ Yes ☐ No

If "**Yes**," did you attach a copy of the published newspaper notice, the date of publication, and the name of the newspaper to this form? ☐ Yes ☐ No

11. Does the application include a flood hazard individual permit based on a hardship exception? ☐ Yes ☐ No
- If "Yes," do all notice letters and published newspaper notices attached to this form (under questions 3, 4, 7, and 8 above, as applicable) include a description of the nature of the hardship as well as the citation and subject matter of each requirement for which the hardship exception is being requested? ☐ Yes ☐ No

SECTION C. FRESHWATER WETLANDS GENERAL PERMIT 15

This section only applies to applications that include a freshwater wetlands general permit 15.

1. Is the applicant a Federal agency conducting activities on Federal land? ☐ Yes ☐ No
- If "Yes," public notice is not required for this activity.
2. Has a display advertisement describing the proposed activities, at least four column inches in size, been published in a newspaper with local circulation (including the municipality) and in a newspaper with regional circulation (including the county)? ☐ Yes ☐ No
- If "Yes," did you attach a copy of the published newspaper notices, the dates of publication, and the names of the newspapers to this form? ☐ Yes ☐ No

SECTION D. PINELANDS

This section only applies to applications where the proposed activity or project is located within the Pinelands Area as designated under the Pinelands Protection Act at N.J.S.A. 13:18A-11.a.

1. Does the application include a flood hazard general permit or individual permit? ☐ Yes ☐ No
- If "Yes," has a description of the project, including the lot and block, municipality, county, and specific permit(s)/authorization(s) being sought, been sent to the New Jersey Pinelands Commission? ☐ Yes ☐ No
- If "Yes," did you attach a copy of the certified United States Postal Service white mailing receipt or other written receipt and a copy of any letter provided with the project description to this form? ☐ Yes ☐ No
2. Does the application include a coastal general permit or individual permit? ☐ Yes ☐ No
- If "Yes," has a copy of the entire application been sent to the New Jersey Pinelands Commission? ☐ Yes ☐ No
- Note: For electronic submissions, the application consists of a description of the project, which must include the lot and block, municipality, and county, the specific permit(s)/authorization(s) being sought, and all items that will be uploaded to the submission service, including all required items on the applicable application checklist(s).
- If "Yes," did you attach a copy of the certified United States Postal Service white mailing receipt or other written receipt and a copy of any letter provided with the application to this form? ☐ Yes ☐ No
3. Is the application solely for a freshwater wetlands general permit(s)? ☐ Yes ☐ No
- If "Yes," do not submit the application to the Department. Submit the application to the New Jersey Pinelands Commission.

RE: Application for NJDEP Freshwater Wetlands Permit
Route 23 Adaptive Traffic Signal Project
Wayne, Passaic County; and Pequannock, Riverdale, Kinnelon & Butler, Morris County

Dear Paul V. Margiotta:

Enclosed, for your records, is a complete copy of the permit applications sent to the New Jersey Department of Environmental Protection (NJDEP) for a Freshwater Wetlands General Permit under the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A) for the above referenced project. Please make this permit available for inspection by the public during NJDEP's review period.

The NJDEP welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:

New Jersey Department of Environmental Protection
Division of Land Use Regulation

RE: Application for NJDEP Freshwater Wetlands Permit
Route 23 Adaptive Traffic Signal Project
Wayne, Passaic County; and Pequannock, Riverdale, Kinnelon & Butler, Morris County

Dear Interested Party:

This letter is to provide you with legal notification that an application for an authorization under Freshwater Wetlands General Permit Number 2 (Underground Utility Lines) & Number 21 (Above Ground Utility Lines) has been submitted to the New Jersey Department of Environmental Protection, Division of Land Resource Protection (DLRP) for the proposed Route 23 Adaptive Traffic Signal Project as shown on the enclosed figures/plans.

The New Jersey Department of Transportation (NJDOT) is proposing to upgrade outdated traffic signal controllers and controller cabinets in order to collect improved traffic data on U.S. Route 23 from Milepost (MP) 5.53 to 16.94, located in the Wayne, Passaic County; and Pequannock, Riverdale, Kinnelon & Butler, Morris County. The proposed project includes the implementation of Adaptive Traffic Signal (ATS) technology for sixteen (16) signalized intersections within the project limits, to accommodate changing traffic patterns throughout the day and ease congestion. Existing traffic devices will also be upgraded, and new devices will be strategically deployed to provide safety, efficiency, and reliability of the traffic signal system.

The complete permit application package can be reviewed at the municipal clerk's office in the municipality in which the site subject to the application is located or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:

New Jersey Department of Environmental Protection
Division of Land Use Regulation

PUBLIC NEWSPAPER NOTICE

In accordance with N.J.A.C. 7:13-19.4 and N.J.A.C. 7:7A-17.4, a public notice has been published in the official newspaper, if any, of each of the municipalities in which the proposed development will be located or in a newspaper of general circulation in the municipality if there is no official newspaper. This newspaper notice shall be published as a display advertisement of at least four inches in width.

The official newspapers for the Project area are summarized below.

- Wayne Township, Passaic County, NJ:
 - o Bergen Record (paper and online)
- Pequannock, Riverdale, Kinnelon, & Butler Townships, Morris County, NJ:
 - o Daily Record (paper and online)

Affidavits of publication will be provided to the NJDEP DLRP once received from the newspaper.

PUBLIC NOTICE

Take notice that an application for an authorization under freshwater wetlands general permits 2 & 21 and flood hazard area individual permit with verification (Methods 1 and 5) has been submitted to the New Jersey Department of Environmental Protection, Division of Land Resource Protection (DLRP) for the development described below:

APPLICANT: New Jersey Department of Transportation

PROJECT NAME: Route 23 Adaptive Traffic Signal Project

PROJECT DESCRIPTION: The New Jersey Department of Transportation (NJDOT) is proposing to upgrade outdated traffic signal controllers and controller cabinets in order to collect improved traffic data on U.S. Route 23 from Milepost (MP) 5.53 to 16.94, located in the Wayne, Passaic County; and Pequannock, Riverdale, Kinnelon & Butler, Morris County. The proposed project includes the implementation of Adaptive Traffic Signal (ATS) technology for sixteen (16) signalized intersections within the project limits, which will adjust the timing intervals of the signal phases at each location to accommodate changing traffic patterns throughout the day and ease congestion. Existing traffic devices will also be upgraded, and new devices will be strategically deployed to provide the capability of implementing operations and maintenance strategies that maximize the safety, efficiency, and reliability of the traffic signal system.

PROJECT LOCATION: Existing NJDOT ROW
Wayne, Passaic County;
Pequannock, Riverdale, Kinnelon & Butler, Morris County, NJ

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:

BOG TURTLE CERTIFICATION & PRE-APPLICATION MINUTES

BOG TURTLE CERTIFICATION

Re New Jersey Department of Transportation Route 23 Adaptive Traffic Signal Project
NJDEP Freshwater Wetland General Permit No. 2 and No. 21
Wayne, Passaic County; Requannock, Riverdale, Kinnelon, & Butler, Morris County, New Jersey

Although Wayne Township, Passaic County, New Jersey is listed as a municipality in which bog turtle (*Glyptemys muhlenbergii*) is known to occur, suitable bog turtle habitat was not observed during the field inspections. In addition, the NJDEP Natural Heritage Database does not have records of bog turtle occurrence in the Project area or within the vicinity of the Project area. Furthermore, the United States Fish and Wildlife Service's Information for Planning and Consultation returned a result of "No critical habitat has been designated for this species."

Based on the above, we believe that the proposed activity will not result in any direct or indirect adverse impacts to bog turtle or its habitat.

Signed:

Date:

April 6, 2023

David Brightbill

WSP USA, Inc. - Senior Environmental Scientist, Earth & Environment

Proposed Adaptive Traffic Signal Project (NJ Route 23, MP 5.53 to MP 16.94)
NJDEP Pre-Application Meeting
Meeting Notes

Date: May 19, 2023

Location: Virtual (Teams) Meeting

Attendees:

Summary:

- On behalf of NJDOT, WSP provided a PowerPoint presentation on the proposed Route 23 ATS project to the NJDEP staff responsible for review of activities in regulated wetland transition areas. This presentation included an overview of the Project description, the installation methods, and the anticipated impacts. A listing of anticipated permits was also included.
- WSP further noted that the Project activities would be restricted to existing NJDOT ROW and that there would be no disturbances to wetlands themselves.
- NJDEP DLRP's Stephen Dench indicated:
 - Need to include a copy of stormwater permitting with the Flood Hazard Act application. Since overall disturbance is greater than 1 acre, but new impervious is less than 0.1 acres, no stormwater BMPs needed.

- o Highlands Exemption - The project should be evaluated further for meeting all conditions under Section 7:38-2.4 - Highlands applicability determination. For Exemption #10, must meet conditions of Section 2.4.b.5 for transportation safety projects (i.e., no new travel lanes, <1 acre impervious surfaces, and <2 acres total disturbance).
- o Freshwater Wetlands GP 2 – will cover transition area impacts as long as they are less than 0.5 acre and elevations are restored to pre-construction elevations. Also GP 10A Very Minor Road Crossings and GP21 Above Ground Utility Lines may be applicable to the project's activities.
- o GP 2 would not be needed for wetlands transition areas if horizontal directional drilling (HDD) is used.
- DOT inquired about the use of the recent Flood Hazard Area Statewide IP, whether the project was under capital projects or under operations/maintenance. DOT ESSU's understanding was that the new Statewide permit could only be used by operations, not capital projects. DOT ME indicated that this might become mute if capital projects was moved in a reorganization. Stephen Dench indicated that he would discuss this with the Department's engineers.

Action Items:

- WSP to send Stephen Dench standard details and/or pictures for all proposed structures; and locations of all proposed above ground structures.
- WSP to distribute meeting notes to all attendees for review and comment.

Prepared by WSP, May 22, 2023.
