

"Mini BioBlitz" at PV Park Saturday, April 27, 2024

RAIN
OR
SHINE

Session 1: (8am sharp): Quietly follow a naturalist around Woodland Lake to identify & log birds, other animals & plants. Find out what belongs and what doesn't! (Bring binoculars if you have a pair.)

Session 2: (9:30am): Kids & adults will discover macroinvertebrate "critters" living in nearby Meyer's Brook as sorted out on a table by our guide. Then follow Environmental Commission staff on a "casual" version of Session 1 that is more suitable for kids and late risers!

- Meet in PV Park parking lot (Marvin Rd)
- All ages (minors must bring an adult!)
- Walk-ins accepted, but to help us, please email
- PTEC@pegtwp.org (put "BioBlitz" on subject line; include your name, party size (and number of kids))
